Subject: In lieu of a BOLO meeting tomorrow...
Date: Thursday, June 17, 2021 6:19:00 PM
Attachments: [CDC Working Group Meeting_20210616_v2.pptx](#)

Given the new federal holiday, I'll be cancelling our BOLO call tomorrow. However, I am sending the slides out for your reference. Let us know if you have any questions.

Thank you!

ADVISORY

Misinformation has been identified about the safety of COVID-19 vaccine ingredients. Please Be On the Lookout for: Statements, pictures, posts, or messages containing misinformation that spike proteins from vaccines have an effect on fertility or other harmful effects.

When Early June 2021

Where Digital Platform(s): Twitter.

Status There has been an increase in speculation that spike proteins from the vaccine are harmful, including citing a "study" showing that COVID-19 vaccine particles accumulate in ovaries. This has been used to falsely claim that the vaccines will impact fertility.

Potential Impact Reduced vaccine acceptance.

The Facts There is currently no evidence that COVID-19 vaccination causes any problems with pregnancy, including the development of the placenta. In addition, there is no evidence that fertility problems are a side effect of any vaccine, including COVID-19 vaccines.

The spike protein is the bio weapon

ADVISORY

Misinformation has been identified about the COVID-19 vaccine ingredients and related side effects. Please Be On the Lookout for: Statements, pictures, posts, or messages containing misleading or false information that vaccine ingredients cause vaccinated individuals to become magnetic.

When	May 2021 – Present
Where	Digital Platform(s): All.
Status	There continue to be videos shared widely on social media platforms claim to show individuals becoming “magnetic” after receiving the vaccine, further fueling the false claim that vaccines contain microchips.
Potential Impact	Reduced vaccine acceptance and spread in real-world spaces.
The Facts	Receiving a COVID-19 vaccine will not make you magnetic, including at the site of vaccination which is usually your arm. COVID-19 vaccines do not contain ingredients that can produce an electromagnetic field at the site of your injection.

Dr says that MAGNETISM is INTENTIONALLY ADDED TO 'VACCINE' TO FORCE MRNA THROUGH ENTIRE BODY

Magnetism it is real!!
 COVID-19 vaccines contain luciferase, tracking materials.
 This is they are building small towers that are going to every neighborhood. They are becoming one with the

ADVISORY

Misinformation has been identified about risks for individuals who have received the COVID-19 vaccine. Please Be On the Lookout for: Statements, pictures, posts, or messages containing misleading or false information that vaccinated individuals cannot travel via airplane.

When	June 2021
Where	Digital Platform(s): Twitter, Facebook, TikTok, Telegram
Status	There have been claims that because of a risk of blood clots, airlines are not allowing vaccinated individuals to travel or are discussing a potential ban.
Potential Impact	Reduced vaccine acceptance and confusion.
The Facts	CDC recommends to delay travel until fully vaccinated. Not related to the COVID-19 pandemic, airplane travel, especially flights longer than 4 hours, may increase the risk for blood clots, including deep vein thrombosis and pulmonary embolism.

Airlines Are Addressing the Problem Of Blood Clots And Recommending Vaccinated People Not To Travel.

The COVID vaccine side effects are beginning to stack up.
